## POLICES & IMPORTANT WARRANTY INFORMATION

### WARRANTY

Metric Motors, Inc. warrants to the original purchaser that each engine sold by Metric, under normal use and with periodical maintenance as set forth by the original manufacturer and as listed below shall be free from any defects in materials and workmanship, subject to the following terms and conditions.

### TERMS

Commencing on date of delivery:

**SHORTBLOCKS** 12 months unlimited mileage

#### LONGBLOCKS

**PRE 1974** 18 months unlimited mileage

**1974-1982** 3 years or 36,000 miles

**Type 601, 602, 603** 3 years or 36,000 miles

**1983 - Current** 4 years or 50,000 miles

### OBLIGATIONS

Under the terms of this warranty it is our option to repair or replace the engine without charge to the original owner. All warranty repairs must be preauthorized by Metric Motors. Labor claims on authorized repairs will be paid at 80% of the Motor or Mitchel Repair Manuals at an hourly rate not to exceed \$55/hour to a maximum of \$1,500. It is the sole responsibility of the installer to order the proper engine for a specific car and to verify proper application before installing said engine.

### LIMITED LIABILITY

The liability of Metric under this warranty is limited solely to the repair or replacement of defective parts or workmanship. Metric shall not be liable for any incidental, special, consequential, or exemplary damages, rental cars, or for any service not expressly provided for herein, relating to or arising from the Metric Engine.

### LIMITATIONS

This warranty applies only to the parts supplied, engine assembly, or shortblock and internal components of the engine. This warranty shall not apply to or include any of the following:

Water Pump (one year warranty)

Injection Pump and Nozzles (2 years or 24,000 miles)(Contamination excluded)

A. Damage as result of overheating, lack of lubrication, oil viscosity or contamination issues, engine management, faulty carburetion or fuel injection problems (unless installed by us) will definitely VOID warranty. Damage resulting from internal corrosion/contamination from cooling system will definitely VOID warranty.

B. Repair or replacement required as a result of any accident or misuse.

C. Any engine used for competition, racing or related purposes.

D. Any faulty accessory or service item, including all components of the cooling, fuel, electrical and engine controls system and all points, plugs, oil filter, belts & hoses.

E. Any Metric Engine which has been repaired or remodeled by any person other than an authorized repair facility, or to which any device or accessory not conforming to original manufacturer's specifications has been installed.

F. Any engine on which the periodic maintenance services required by the original manufacturer have not been performed, including, after engine reaches operating temperature, retorquing of head bolts as required and readjusting valve clearance. **In addition, oil and oil filter must be changed within the first 500 miles and within every 3,000 miles thereafter.**

This warranty is given in lieu of all other warranties, expressed or implied, including any warranty of merchantability or fitness for a particular purpose on the part of Metric or the dealer installing the engine. No dealer, nor any agent or employee, thereof, is authorized to extend or enlarge this warranty.

All warranty claims must be accompanied by Engine Block & Serial #, Installers Original invoice & Warranty Repair Invoice. If any new parts installed, we must receive old parts.

### CORE POLICY

Cores are a valuable component in the running of our business. Obviously we are unable to have engines available on an exchange basis without them. Consequently, unless prior arrangements have been made, we must insist on collecting a core deposit. **We highly recommend that the installing garage collect a core deposit from the car owner.** (at least a check to hold and then void upon Metric's acceptance of the core). The fact that a car came in running does not constitute a rebuildable core. The block may already be at the last repair state or the head at minimum thickness, etc. **Metric reserves the right to determine core viability.** Any core determined to be not repairable may be returned to the customer - if they so request - within 14 days of defective core notification. **We charge only for those non-repairable important core items as laid out on price list or at time of order.** Core items that are repairable, yet require excessive and out of the ordinary repairs (ie: numerous sleeves, special crack repairs, major combustion chamber rebuild, etc.) subject to a 50% core item value charge. Although core charges may apply only for block or head, etc. we must still receive all components relating to those that were supplied. It is the installers responsibility to remove any hardware not included in exchange engine and drain the engine core of oil and water. **TO RECEIVE FULL CREDIT, CORES MUST BE RETURNED WITHIN 60 DAYS.**

### SHIPPING

We deliver engines within Los Angeles, Orange, and Ventura counties for no charge. Any engines that require shipment are done so at customer's expense, including return of core. Freight charges are guaranteed when prepaid at time of order. Prices available upon request. Example of ROUND TRIP rates...California \$150.00, Oregon or Texas \$250.00, New York or Florida \$400.00.

## **IMPORTANT**

### **RE: FUEL DELIVERY / ENGINE MANAGEMENT**

#### **PARTICULARLY ON MECHANICAL FUEL INJECTION**

**230SL – 250SE/SL – 280SE/SL**

#### **CARBURETOR TYPES**

**190SL – 220S – 250S – 280S**

**DIESEL AND V-8 ENGINES**

**U.S. AND EUROPEAN VERSIONS**

IT IS IMPERATIVE THAT, UPON INSTALLATION, THE FUEL INJECTION/CARBURATION AND IGNITION SYSTEMS ARE SET UP CORRECTLY. THROTTLE LINKAGE AND CONTROL RODS MUST BE ADJUSTED PROPERLY

THESE ENGINES ARE SENSITIVE TO IMPROPER FUEL DELIVERY.

AN **ENRICHED CONDITION** WILL THIN OIL LUBRICATION PROPERTIES WITHIN THE COMBUSTION AREA RESULTING IN **DAMAGE TO PISTONS, RINGS, AND THE CYLINDER WALL FINISH.** BEARING DAMAGE MAY ALSO OCCUR. INCORRECT IGNITION PERFORMANCE WILL HAVE SIMILAR RESULTS. THIS IS ESPECIALLY TRUE WHEN THE ENGINE IS NEW, AS THE BEARINGS AND PISTON TO CYLINDER WALL CLEARANCE IS AT A MINIMUM = EXACT TOLERANCE.

DAMAGE TO ENGINE AS A RESULT OF IMPROPER FUEL DELIVERY OR IGNITION RELATED FAILURES, WILL DEFINITELY **VOID WARRANTY.**

THANK YOU FOR YOUR COOPERATION. IT IS OUR GOAL THAT BOTH YOU AND THE CAR OWNER ARE COMPLETELY SATISFIED.

GD *Gelovende wagen (4x4 SUV)*

**Vehicle:** 1980 Mercedes Benz 300D (125 Chassis) L5-2998cc 3.0L DSL SOHC Turbo 617

Description	Part #/Labor Rate	Qty	Price/Time	Extended
VIN: 460 332 17 004769 model 460.3 2500kg 5 cylinder Diesel No turbo engine. Manual 4-speed transmission. Three doors SUV. We used labor guide for engine work for Mercedes 300D sedan. Remarks: Transmission output shaft is loose, shaft between transmission and transfer case has to be removed- adjust bearing, replace transf. case input shaft seal. Right front wheel bearing- too much play- need adjusting Play at the steering wheel- needs all tie rods, especially left and right rear part (three rod ends). After rod replacement, there still may be necessary to adjust gear box) Engine oil leak- engine oil filter case gasket Transfer case- output shaft bearing need adjustment (to rear driveshaft) Check for excessive white smoke, it was also difficult to start cold engine- cylinder head gasket leaks. Need thermostat.				
Drive/Propeller Shaft- shaft between transmission and transfer case				
Remove/ tighten transmission flange bolt (inspect bearing), replace transfer case input shaft seal (B) Does Not Include: Flex Disc Replacement.	Labor 80.00 / hr	1	2.50	200.00
Transfer case input shaft seal - (supplied by customer)		1	0.00	0.00
Driveshaft/propeller shaft- between transfer case and rear differential - remove parking brake, tighten transfer flange nut (inspect bearing)	Labor 80.00 / hr	1	2.60	208.00
Gear oil		1	10.00	10.00
Adjust Right front wheel bearing	Labor 80.00 / hr	1	0.50	40.00
Tie Rod assembly - front and rear supplied by customer. Replace		2	0.00	0.00
One Side (B) Does Not Include: Toe-In Adjust.	Labor 80.00 / hr	2	0.60	96.00
Front wheel alignment		1	75.00	75.00
Left front tire was leaking- the rim is corroded. Replace with the spare rim. At this point the spare wheel will leak air. Rim has to be sandblasted, or replaced. Charge for tire change and balance.		1	20.00	20.00
Oil filter case- remove/replace case-to-block gasket	Labor 80.00 / hr	1	2.00	160.00
Oil filter case gasket		1	3.40	3.40
Thermostat				

at Kit  
 with Gasket 80 Deg.  
 Engine 617.912: to Series 12-067785  
 replace (C)  
 Coolant (for inspection before valve job )

## Did you know . . .

We will electronically set your tires to the precise amount of inflation recommended by your vehicle's manufacturer. Because, according to the National Highway Traffic Safety Administration, one in every 4 cars on the road today has at least one tire that is dangerously underinflated! For your family's safety and your car's dependability, every little thing is important at Oilstop.

\*Must present your Oilstop Oil Change Invoice with this sticker affixed. Not valid with any other offer. Not redeemable for cash. Coupon has no cash value. GOOD EXPIRES 30 DAYS FROM DATE OF OIL CHANGE.
